

Wir suchen Sie für unseren Standort in USA (Acworth) als

Senior Service Engineer, Latin America (position in Acworth, GA 30102)

Beschäftigungsart: Vollzeit

Vertragsart: unbefristet

Reisetätigkeit: bis zu 75%

Ihre Aufgaben

Design, develop, implement and test automation engineering systems for Latin American customers using Allen-Bradley Programmer Logic Controller (PLC) Systems, Allen-Bradley and SEW-Eurodrive servomechanisms (servos) and variable frequency drives (VFDs), and Festo and SMC pneumatics on Ethernet/IP, for pallet load unit and large Container packaging machines. Engage in the delivery of service engineering support in the Latin American market, interpreting customer equipment requests, developing design specifications, and serving as customer contact on technical issues and for operations support and end-user training pertaining to automation engineering systems.

Ihr Profil

- must have a Bachelor's degree in Electronics Engineering or a related field (or foreign degree equivalent); and
- two years of experience engaging in: the design, development, implementation, and testing of automation engineering systems using Allen-Bradley PLC systems, Allen-Bradley and SEW-Eurodrive servomechanisms (servos) and VFDs, and Festo and SMC pneumatics on Ethernet/IP; and the delivery of service engineering support in the Latin American market.
- this position requires domestic and international travel up to 75 % of working time.

Was wir bieten

- a position which reflects your personality
- company-wide cultural values, which do not only exist, but are alive within the whole group
- excellent career prospects within the company and the MSK Group

In return, we'd expect you to

- always be one step ahead
- be able to fight, win but also lose

- allow yourself and others mistakes, but not the same twice
- never forget to enjoy your work
- know that you will be submitting your application after reading this advertisement
